MEMORANDUM FOR: Chief, Administrative Staff, OL

SUBJECT: Report of Objectives and Accomplishments

25X1

*Accomp. 1*

1. The Logistics Services Division was activated during October 1962. This activation progressed in stages with the transfer of its elements from the various Divisions of the Office of Logistics during the period 22 October 1962 through 21 January 1963. All services planned to be performed by LSD are now components of the Division. The estimated Table of Organization strength [ ] is proving quite close to the required strength. The first months of operation of this Division is not really a true test of personnel requirements but it would appear that the strength of approximately [ ] including ceiling for the laborers now hired on a contract basis from Nationwide, may be adequate to satisfy manpower requirements. A revised Table of Organization will be prepared within the next ninety days. The Division is shaping an organization consisting of a Chief's Office and six Branches (Space, Facilities, Telephones, Mail and Courier, Local Transportation, and Building Services).

25X1
